

Scorpion Plate Handling to liquid dispensing systems.

Automated plate feeding to Thermo Multidrop Combi series liquid dispensers. Entry level automation for reliable, consistent plate filling.

Order Code: Scorpion system, 250-10024-002TH Order Code: Compressor system, 250-10032

KBiosystems Scorpion range in offer the user the ability to step up to automated plate handling to a number of OEM liquid handling systems. Custom designed integration plates suited to both Thermo Combi instruments to maintain position for repeatable dispensing.

Offering complete versatility, the Scorpion will work with a wide range of plates, tube racks, shallow and deep well formats.

Plate re stack option allows the user if feeding and retrieving plates from a secondary piece of equipment and the need for defined plate stack orientation, the plates can internally be reprocessed into their original line format.

Mini Compressor (example only)

With the addition of the optional lid removal upgrade the Scorpion and can handle plate and remove the lid prior to placement on the liquid dispensing system, helping decrease any possible contamination issues that may arise

Scorpion Plate Handling Series structure footprint

Key Features:

Operator Friendly: Easy to program and operator and integrator friendly

Versatile: Able to use multiple plastic ware manufactures plates across applications.

Reliable: Engineered with robustness in mind

System:

Applications: handles plates with or with out lids **Data Control:** Direct integration via RS232 link

Software: Proprietary firmware and application driver plug a play

to Thermo MultiDrop Combi series dispensers

Plate type: All SBS footprint applications, and range of racks.

Installation

Requirements: 110/220vac 50/60Hz mains supply

Compressed air supply 5.5bar(80psi) at 20LPM

(small MAC compressor can be supplied)

	Plate Hive	Capacity
96 well plate formats	\checkmark	Up to 50
384 well plate well formats	\checkmark	Up to 72
1536 well plate well formats	\checkmark	Up to 72
Handles lids	\checkmark	May reduce capacity
